its fun you can shoot peoples willies hehe. Okay, it took me two and a half hours to figure out every combination, get all the wild stickers and every achievement thereby. Its a fun diversion to be sure, but nothing more. Zero replay value, there could have been more combinations and the one music track repeats endlessly. To think that I paid €1,49- (with 25% discount) for this is ludicrous. So do I recommend it? Ahahaha~! NOPE~!. Got it for a buck and change. Pretty fun and challenging. Control scheme is a little wonky and the controls are a bit floaty but it's pretty fun to be honest. Has that "one more run" kinda feel to it. Plus the musiic is pretty rad. Gotta love them bleep-bloops!. Still one of the most addictively fun little distractions ever made. Love to go back every now and then just for a quick diversion occasionally.

Just watch one of the demo videos and you'll know all you need to know about gameplay. With the cool backing soundtrack, the fun little sound effects and fanfare melodies when you make a good shot or get an extra life or clear a level, and all the cool power-ups... it's just fun to waste time in it and try to beat your high score.. Very simple design yet fun to play. Great concept and the music fits the game very well.

While not being a AAA game, it's at least a AA game : the graphics are still clean for today (2019), the feeling of the gameplay is flawless while not revolutioning anything, the campagne is really enjoyable with cool cinematics while not being top notch. The multiplayer is really cool while being almost dead to this date (don't take DLC's, there is nobody to play them, but classics maps are still played and the Horde mode is fun as \u2665\u2665\u2665\u2665). Seriously, it's a shame that Dawn Of War 3 failed that hard and Relic said they will focus from now on on Ages Of Empire 4 (still a good news tho) but we need a Space Marine 2 ! There are a lots of good Games Workshop video games, but they are for the vast majority little productions with meh to bad quality... Space Marine is for me the only game with DoW 1 close to a triple A in the GW universe. go for it, it cost nothing today and is enjoyable for what it is !. Check the forums for the game before buying to see if the vr hand issue is fixed. At the time of this review, one of the 2 hands just stays stuck in the floor. This happens on both vive and rift. I'm sure it's a great game, but can't really play it.... Trespass Episode 1 is one of those types of games that really tries to immerse you into the world that they created.

It's not like a typical "room escape" game as it puts you in situation that you wouldn't have in a simple "room".

I spent a long time solving the puzzles but I really enjoyed my time with the game.

. I cannot reccomend this game. It was OK until i got to the Chris Hansen boss fight, but EVERY DAMN TIME, he already knows where im going before i get there, and i wind up sitting in that damn chair, in the spotlight answering his stupid questions. CURSE YOU CHRIS HANSEN!

but in all seirousness, no, this isn't a good game. It's worth grabbing if you get it in a bundle, or for 99 cents or less. It is nothing but a cheap imitation of Goat Simulator, where you are instead a lion, and it does a horrible job of being that. do not buy.. For a brief period in my life i was fascinated by indie and casual games. I got bejeweled 2, astro pop, heavy weapon, peggle nights, and others.

This game is what ended my casual player fever. It is utterly horrible. Don't buy it.

On an unrelated note, eversion is what brought back my faith in indie games.. This is the second Choice of Games title I played after A Study in Steampunk.

Because of how much I loved that previous game, and because of the interesting premise for this one, I was really excited to try this.

But I'm joining the "this is a big, boring letdown" club."
