

[Nas Data Recovery V212 Crack](#)

The screenshot shows the Gobby text editor window titled "hello.c - Gobby". The menu bar includes "Gobby", "Session", "Edit", "User", "View", and "Help". The toolbar contains icons for "Create session...", "Join session...", "Quit session", "Create document...", "Open document...", "Save document", and "Close document".

The main editor area displays the following C code:

```
1 /*
2 * hello.c
3 * Hello World!
4 */
5
6 #include <stdio.h> // need printf
7
8 int main() {
9     say("Hello, World!\n"); // Say hi :)
10    return 0;
11 }
12
13 void say(char *s) {
14     printf(s); // Print the string (s)
15 }
```

On the right side, there is a table with the following data:

Colour	Name	Connected	Subscribed
<input type="checkbox"/>	bluefox	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<input type="checkbox"/>	Icecfox	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

The chat window at the bottom shows the following messages:

```
[15:13:52] bluefox has joined
[15:16:36] Icecfox has joined
[15:17:07] <bluefox> Hey icy
[15:17:13] <Icecfox> Hi blue! ^^;
[15:17:28] <Icecfox> ok I subscribed ^^;
[15:17:55] <bluefox> oh good. Can you write say() for me? It needs to take a char* and print it to the screen
[15:18:36] <Icecfox> no problem, this'll be a one-liner ^^;;
[15:20:08] <bluefox> You should probably use a void and don't return, here I'll fix it
[15:20:26] <bluefox> also you need comments
[15:20:34] <Icecfox> sheesh picky...
```

The status bar at the bottom indicates "Selected language: C | 0 pending changes | Revision: 235" and "Line: 10, Column: 18".
